Block of 5 year Rhododendron c. Boursault

OVER 30,000 HYBRID RHODODENDRONS

All our Rhododendrons are grown without shade. They are pruned well and are extremely stocky and heavy plants and are well budded. They are either grafts, cuttings or layers and are true to name. Though we sell thousands of them every year, we always run short. Order early to cover your demand.

If orders are placed for spring 1959 please add \$1.00 to each plant regardless of size or variety. Buy in the fall and store for spring sales just heeling them into a cold shed or protected lathhouse.

On Rhododendrons only, either height, width or both will govern size.
